

Honey B

This is a very simple cocktail that is refreshing during the warmer months, up into the late fall. It is best with local honey, especially the honey we use from Bronson's Honey. Good bourbon makes all the difference as well so choose wisely.

4 oz	bourbon
2 oz	fresh lemon juice
2 teaspoons	teaspoons honey
2 twists	lemon

1. Fill a shaker 3/4 full with ice cubes and top with the first set of ingredients. Cover and shake until well chilled, roughly 20 times.
2. Strain into rocks glasses filled with ice.
3. Garnish with the lemon twists.
